

# MasterControl

## COMPLETE STUDIO INTERFACE AND CONTROL SYSTEM

### THE ONLY HARDWARE YOU NEED TO RUN A PROFESSIONAL RECORDING STUDIO.

MasterControl is a premium audio interface, control surface, and control room manager. The only piece of gear you need to input all of your sources into your DAW; the only piece of gear you need to control recording and editing; and the only piece of gear you need to run professional tracking and mixing sessions is MasterControl. MasterControl includes two powerful recording and production programs: Steinberg Cubase LE 4 and Ableton Live Lite 7.

MasterControl is an HUI+ control surface, meaning that it is uniquely programmable with HUI and Mackie Control compatibility for use with all popular DAWs, virtual instruments, and other audio software on Mac and PC.

## FEATURES
